

Temjanika 2007

This wine is made 100% from the Temjanika variety (Muscat de Frontignan). It has an attractive bright yellow-green color. The aroma is floral and fruity, typical for this variety. The dominant rose and basil note are combined with dried apricot and orange peel. Medium-bodied, with a moderate alcohol level and expressive long freshness.

Recommended for consumption as an aperitif, chilled at 10-12°C, or in a combination with pheasant fillet with fruit, or with Asian food.

Bottled: May, 2008
