

Ten Barrels Cabernet Sauvignon 2011 Reserva

This premium red wine, produced from the Cabernet Sauvignon variety, is defined by a deep ruby red color with dark red hues. A genuine reserva wine with a recognizable, ripe, abundant nose with a fruity and spicy character. This wine unveils berries combined with liquorice, dark chocolate, roasted coffee and mint, complemented with vanilla and spicy tones. The complexity of this wine results from the 31-month ageing process in new French and American oak barriques. The taste is full-bodied, harmonious, with a solid structure, impressive and strong tannins, and with a long and pleasant aftertaste that marks this wine with a specific charm. This wine is perfectly combined with meat specialties, especially with beef steak in a green pepper sauce or game in a spicy sauce.

Recommended serving temperature: 16-18°C.

Alcohol: 15.3 % by Vol.

Bottled: December 2014
