

## Winemaker's Selection 2011

Estate bottled dry red wine produced as a blend from carefully selected grapes of the distinguished varieties: Carmenere (78%), Sangiovese (15%) and Cabernet Sauvignon (7%). The wine has a deep ruby red color with a bright hue and transparent shine. The aroma is complex; the dominant fruity-spicy character unveils tender hints of sour cherries that gradually turn into vegetal subtones. The taste is full, with a velvety structure, soft tannins and with a long aftertaste.

Recommended serving temperature: 14-16°C. Combine this wine with selected cheeses, Italian sausages and various meat specialties.

Alcohol: 14.1%Vol.

Bottled: October, 2013
