

Montepulciano 2011

Estate bottled dry red wine with a controlled and guaranteed origin, produced from the Montepulciano variety; crop reduction applied. This wine is defined by a deep ruby red color that is emphasized through the vinification with 3% of the Vranec, 2% of the Merlot and 2% of the Syrah variety. The nose is intense, with aroma of ripe blackberries, mulberries and wild soar cherries. The taste is remarkable; at the very beginning it is introducing an explosion of combined tastes of cappuccino, tobacco and fine strings of smoke, finishing with an interesting aftertaste of fruit jam. The harmonic acids and the soft velvety tannins provide this wine with a several-year ageing capacity.

Best served at 16-17°C, combined with red meat specialties, foie gras with onion jam, or with selected strong cheeses.

Alcohol: 14.1% Vol.

Bottled: January, 2014
