

Montepulciano 2009

A dry red wine produced from carefully selected Montepulciano grapes from the Skopje wine district, crop reduction applied. The nose is intensive, fruity and spicy at the same time. It reminds of red forest berries, cherry purée and clove with some mocha notes. The taste is ripe, full-bodied and complex, with a touch of sweetness and harmonic freshness. A careful cellaring for several years can ensure the development of its further complexity.

This wine is best served at 15-18°C, with red meat dishes, foie gras with onions jam or assorted cheeses.

Alcohol: 13,2% Vol.

Bottled: July, 2011
