

Rosé Sexy 2014

This rosé wine is created by blending several grape varieties, 20% Sangiovese, 20% Motepulciano, 12% Arinarnoa and 48% Cabernet Sauvignon through application of the so-called “Saignée” method. This method enables few hours of a direct contact of the grape juice with the grape skins, resulting in an outstanding bright rose color of the wine. The nose is remarkable, with a forest berries aroma; the dominant raspberry and strawberry notes are complemented with discrete sweet cherry hints. The taste is full-bodied, fruity, with impressive freshness and balance.

Enjoy this rosé wine as an aperitif, or with fresh fruit salads, chilled at 8-10°C.

Alcohol 12.5 % by Vol.

Bottled: February 2015
